Задание №3 (15 минут)

Прочитайте текст, составьте чек-лист из 6-10 полезных привычек, которые выделяются в тексте:

«Our Health»

Our health depends on many things: our physical activity, the food we eat and our good and bad habits. Although a lot of people are interested in staying healthy, not many people do very much about it. Modern way of life when people have little physical activity, use cars instead of walking, watch television and work on computers for many hours is quite dangerous for their health. People's health also influences their mood.

There are many opportunities to stay healthy and be fit and one of them is going in for sports. But you needn't be a professional sportsman. Just simple regular exercises give you energy and help you feel and look better.

Exercises that involve repeated movements such as are walking, jogging or swimming are the best. Bending and stretching which are practiced in aerobics or yoga make your body flexible and light. The cheapest and most popular sport is jogging. If you don't have time for it, make small changes like using stairs instead of the lift or walking or cycling instead of taking the bus and it can help you to improve your health and make you a more active person.

Also it is very important to get rid of bad habits. The worst ones are smoking and drinking alcohol. Smoking doesn't only causes heart and lung problems but also makes your teeth yellow and skin unhealthy.

Food we eat also influences our health. A lot of people like drinking Coca-Cola and coffee and enjoy pizza and hamburgers. But what is tasty is not healthy. You should avoid eating in fast food restaurants and make it a rule to cook meals at home using organic food as much as possible.

Only a healthy man can enjoy his life, work well and be happy. There are proverbs "Health is better than wealth" and "Early to bed and early to rise makes a man healthy, wealthy and wise".

Описательная часть: Письменная контрольная работа.

Задание №1 (15 минут)

Прослушайте/прочитайте текст.

Hi again... As you already know, I am a first-year student of the college.

Now, let me describe my usual working day. My classes begin at nine o'clock. So on weekdays I have to get up at half past seven. My alarm clock usually wakes me up and my working day begins. I turn on the radio, do my morning exercise, take a shower and brush my teeth. After that I get dressed and comb my hair. Then I have breakfast. I love to listen to the latest news on the radio while I am eating.

I leave the house at ten minutes past eight and walk to the nearest bus stop. I live rather far from the college and it usually takes me about a quarter of an hour to get there by bus. Sometimes when the weather is fine and I have enough time I walk to the college.

As a rule we have 6 or 8 lessons a day. We have different subjects. Usually I don't miss my classes because I want to pass my examinations successfully. But sometimes I do, especially when the weather is fine.

At twelve o'clock we have a big interval for lunch. That's my favourite time. That is the time to share the latest news with my friends. I prefer not to go to the canteen and we often have lunch in a small cafe not too far from the college. At one o'clock we have to be back to our classes. During the working day we also have several short intervals that last for ten minutes.

From time to time I have to stay at the college till late in the evening because I go to the library to get ready for my practical classes or to write a report. As a rule I have no free time on weekdays. So, by the end of the week I get very tired.

I come home at about 7 o'clock in the evening. My parents are already at home. We have supper together. After supper we wash dishes, drink coffee or tea and watch TV. I prefer old comedies and serials or films about travelling. Sometimes I go for a walk in the park or visit my friends.

At about eleven at night I go to bed. I like to read something before going to bed or to listen to some music. Sometimes I fall asleep while I am reading.

Вариант 1

Climate is a weather a certain place has over a long period of time. Climate has a very important influence on plants, animals and humans and is different in different parts of the world.

But recently the climate has changed a lot, especially in Europe. Scientists think that the reason is

greenhouse effect. It is caused by carbon dioxide (углекислый газ). Carbon dioxide is produced when we burn things. Also people and animals breathe in oxygen and breathe out carbon dioxide. As you know, trees take this gas from air and produce oxygen. But in the last few years people have cut down and burn big areas of rainforest. This means that there are fewer trees and more carbon dioxide.

This gas in the atmosphere works like glass in a greenhouse. It lets heat get in, but it doesn't let much heat get out. So the atmosphere becomes warmer.

Greenhouse effect is sometimes called global warming.

Questions:

- 1. What is climate like?
- 2. What do you know about greenhouse effect?
- 3. What role does carbone dioxide play in the process of global warming?
- 4.

Вариант 2

We are the caretakers of the earth. We know that polluted air, water and land are harmful to plants, animals and people. In Russia there a lot of regions which are severely polluted. It is plants that pollute our atmosphere with tons of harmful substances. These are very dangerous wastes. They go into the air and are carried by winds for great distances.

60% of the air pollution is caused by different means of transport: cars, trucks, buses.

Then we must remember that when we use aerosol sprays, we destroy the ozone layer which protects the Earth from the dangerous ultraviolet rays of the sun.

Questions

- 1. What kinds of pollution can you name?
- 2. What is the main source of air pollution?
- 3. What do you know about the ozone layer?

Раскройте скобки, выберите подходящий вариант причастия:

Nessie.

Have you ever heard of the Loch Ness Monster? Many people believe that there is a huge animal

(living/lived) in Loch Ness in Scotland.

The animal is about 50 metres long (including/included) its tail. Nobody knows anything about its (eating/eaten) habits. There are some photos of the animal (taking/taken) by different people (visiting/visited) the lake, but nobody can prove that they are real.

This animal (giving/given) the nickname Nessie has been one of the greatest tourists attractions to the area for years. Expeditions (sent/sending) to Scotland tried very hard to find and catch Nessie. And so did individuals (looking/looked) for the animal. But there has been no result yet.

Nessie is still a great mystery. Very few things (**knowing/known**) about Nessie are: it has a long and thin neck like a giraffe's, its head is quite small and looks like a horse's, its colour is dark yellow and its habitat is the deepest and the coldest part of the lake.
