деятельности
(2 курс, 3 семестр 2026-2027 уч. г.)**

Текущий контроль №1 (45 минут)

Форма контроля: Контрольная работа (Опрос)

Описательная часть: Письменная контрольная работа

Задание №1 (10 минут)

Read the text and answer the questions:

In recent years, scientific and technological developments have drastically changed life on our planet as well as our views both of ourselves as individuals in society and of the Universe as a whole.

Today, science and technology are closely related. Many modern technologies such as nuclear power and space flights depend on science and the application of scientific knowledge and principles. Each advance in pure science creates new opportunities for the development of new ways of making things to be used in daily life. In turn, technology provides science with new and more accurate instruments for its investigation and research.

Technology refers to the ways in which people use discoveries to satisfy needs and desires, to alter the environment, to improve their lives. Throughout human history, men and women have invented tools, machines, materials and techniques, to make their lives easier.

Of course, when we speak of technology today, we are looking at it in a much narrower sense. Generally, we mean industrial technology, or the technology that began about 200 years ago with the development of power-driven machines, growth of the factory system, and mass production of goods that has created the basis for our modern society. Today we often say that we live in an age of science and technology. According to one estimate, 90% of all the scientists who ever lived, were alive and active in the 1970-s. This increased scientific activity has brought new ideas, processes, and inventions in ever-growing amount.

The scientific revolution that began in the 16th century was the first time that science and technology began to work together. Thus, Galileo, who made revolutionary discoveries in astronomy and physics, also built an improved telescope and patented a system of lifting water. However, it was not until the 19th century that technology truly was based on science and inventors began to build on the work of scientists. For example, Thomas Edison built on the early experiments of Faraday and Henry in his invention of the first practical system of electrical lighting. So too, Edison carried on his investigations until he found the carbon filament for the electric bulb in a research laboratory. This was the first true modern technological research.

In a sense, the history of science and technology is the history of all humankind.

1. What role has scientific and technological development played in man's life?
2. What proves that science and technology are closely related today?
3. What does the term «technology» refer to?
4. What does the term «industrial technology» mean?
5. How is scientific activity in the 1970-ies estimated?
6. What facts prove that the scientific revolution of the 16th century was the first time that science and technology began to work together?
7. What was the first true modern technological research?
8. How can the history of humankind be described?

5	Задание выполнено (использовано 9-10 фраз). Цель общения успешно достигнута, тема раскрыта в заданном объеме.
4	Задание выполнено (использовано 7-8 фраз). Цель общения достигнута, тема раскрыта в заданном объеме.
3	Задание выполнено (использовано 5-6). Цель общения успешно достигнута, тема раскрыта в заданном объеме, социокультурные знания использованы в соответствии с ситуацией общения.

Задание №5 (8 минут)

Read the following text carefully and underline all degrees of comparison (comparative, superlative forms) used in it.

Scientific discoveries and technological advancements have always been at the forefront of human progress. From ancient times until today, innovations have changed our lives significantly. For example, modern smartphones are far more powerful than early computers, which were much larger and slower. Today's artificial intelligence systems outperform humans in many areas, especially when it comes to data processing speed and accuracy. The most advanced robots now perform complex tasks better than ever before, helping us solve some of the world's biggest challenges.

However, even though technology has improved dramatically over time, there are still many limitations. Scientists continue working hard to overcome them because the benefits of new technologies are greater than their drawbacks. With every passing year, we see newer, faster, and smarter devices being introduced into everyday use.

Текущий контроль №2 (40 минут)

Форма контроля: Контрольная работа (Опрос)

Описательная часть: Письменная контрольная работа

Задание №1 (10 минут)

Read and translate the text. Translate the expressions in bold:

Russia is the largest country in the world. **It occupies about the one seventh of the earth's surface.** Russia covers the eastern part of Europe and the northern part of Asia.

The country is washed by 12 seas of three oceans: the Pacific, the Arctic and the Atlantic. In the south Russia borders on China, Mongolia, Korea, Kazakhstan, Georgia and Azerbaijan. In the west it borders on Norway, Finland, the Baltic States, Belorussia, the Ukraine. It also has a sea border with the USA.

The population of Russia is 145.5 million people. 83 percent are Russians. **The capital of the country** is Moscow. It is the largest city and has a population of about 12 million people (2016).

There is hardly a country in the world with such a variety of scenery and vegetation. Russia has **steppes in the south, plains and forests in the central region, tundra and taiga in the north, highlands and deserts in the east.**

Russia is located on two plains. They are the Great Russian Plain and the West Siberian Lowland.

There are several mountains chains on the territory of the country: the Urals, the Caucasus, the Altai and others. The largest mountain chain, the Urals, separates Europe from Asia.

In Russia there are long rivers and deep lakes. The Volga is the biggest Europe's river. The world's deepest lake is Lake Baikal. The water in Lake Baikal used to be very clean. It was so clear that if you look down you can count the stones on the bottom.

Russia has one sixth of the world's forests. They are concentrated in the European north of the country, in Siberia and in the Far East.

Over the vast territory of the country **there are various types of climate, from arctic in the north to subtropical in the south.** In the south-west the weather is usually mild and wet; northern Asia is one of the coldest places on the earth, and in the south the heat is unbearable. But in the middle of the country the climate is moderate and continental.

Russia is very rich in mineral resources. It exports oil and natural gas.

In recent years the political and economic situation in the country has started getting out of the crisis.

There are a lot of opportunities for our country to become one of the leading countries in the world.

3	Правильно отгаданы 4 достопримечательности.

Задание №3 (15 минут)

Make a dialogue between two friends, who are planning a trip to Moscow. They want to explore famous landmarks and cultural attractions. Their conversation should focus on Moscow being the capital city of Russia and highlight popular tourist destinations there.

Requirements:

- At least six exchanges between characters.
- Each character asks questions and provides answers related to Moscow's significance as the capital.
- Highlight historical sites, museums, monuments, and any special events they plan to visit.

Оценка	Показатели оценки
5	Полностью раскрыта тема, соблюдена структура и логика повествования, речь грамотная, используются разнообразные выражения и правильно переданы межкультурные аспекты.
4	Тематика частично раскрыта, имеются незначительные ошибки в структуре или содержании, допускаются небольшие погрешности в речи, однако диалог понятен и коммуникативно эффективен.
3	Основные элементы темы присутствуют, но диалог неполноценен, встречаются значительные ошибки в построении предложений, отсутствуют важные культурные моменты, понимание затруднено.

Задание №4 (5 минут)

Choose the correct answer:

1. Paul is good at tennis. He ... tennis very well.

- a) play b) played c) plays d) will play

2. Suzy ... to rock music ten minutes ago.

- a) listened b) listens c) will listen d) listen

3. Many birds ... south every summer.

- a) will fly b) fly c) flew d) flies

4. Mr. Black ... computer in several minutes.

- a) use b) used c) will use d) uses

5. Jack usually ... to work on Saturdays.

a) don't go b) didn't go c) doesn't go d) won't go

6. Dick ... help students with the projects next week.

a) won't b) doesn't c) didn't d) don't

7. It ... rain last week.

a) doesn't b) didn't c) won't d) don't
